气味分子怎样成为嗅觉信号

气味分子

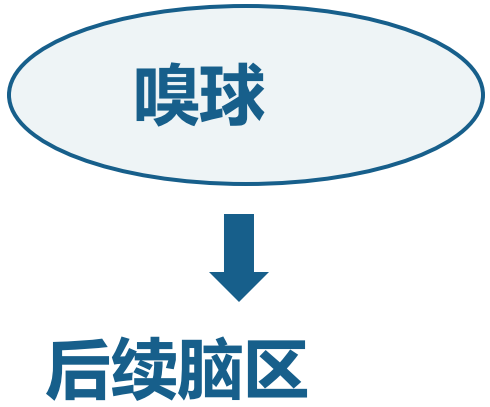

随吸气到达嗅觉区域

受体与感受神经元

化学刺激转成神经信号

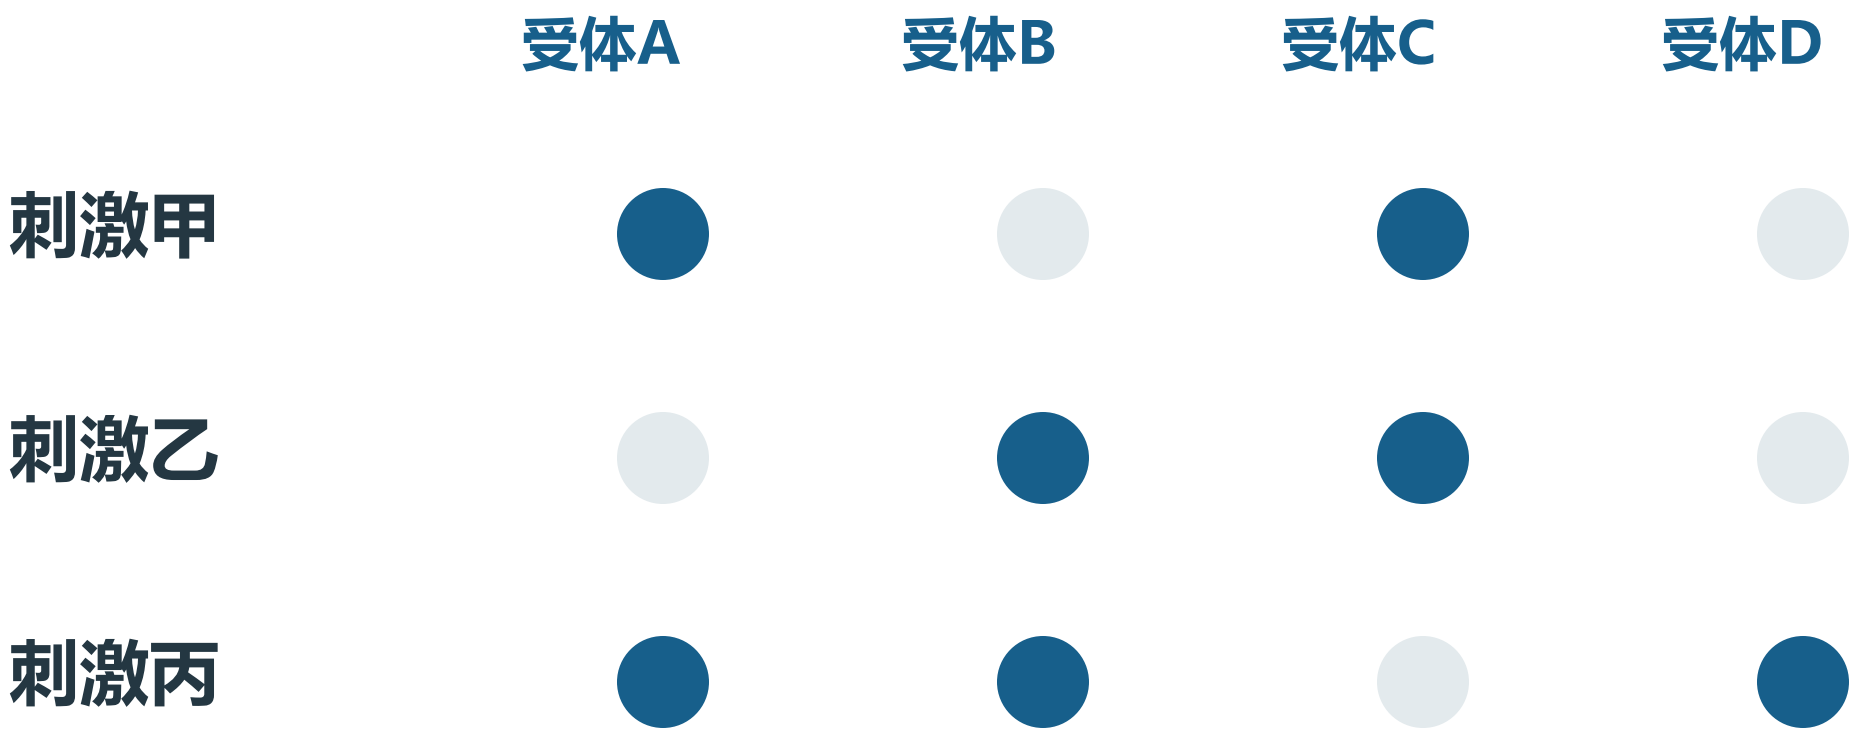

处理信号，形成感受

分子刺激 → 神经信号 → 气味感受

嗅觉通路教学示意；NIH/NIDCD；Columbia University；Malnic等，1999

嗅觉受体的组合响应

看响应组合来理解编码；图中甲乙丙与圆点均为教学示意

Malnic等，Cell，1999，Abstract；受体组合关系教学示意
